

D MOULD / ASTRAGAL

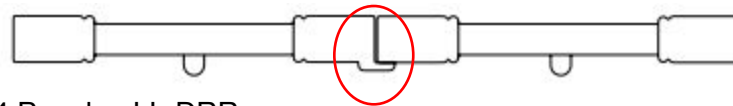

All shutter panels that close into each other have a D Mould or Astragal strip attached for easier installation as well as providing a natural light block.

The D Mould can be attached to the right panel (L-DR), allowing the right panel to close onto the left panel (and open first), or it can be attached to the left panel (LD-R).

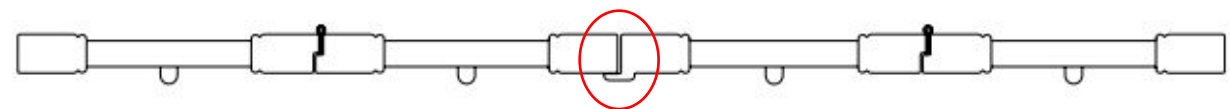

2 Panels - L-DR

2 Panels - LD-R

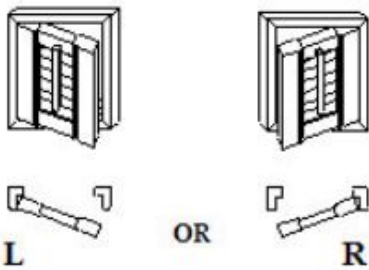

4 Panels - LL-DRR
